**AMAZON**

## AMAZON

8"x12"

8"x8"

## AMAZON

The AMAZON Block is a combination of an 8"x8" square and 8"x12" rectangle. Similar to the Caribbean Combo II, its surface features a slight pillowed edge to add depth and character to any project. This combo is packaged approximately 30% 8"x8"s & 70% 8"x12"s. Available in 2-3/8" thick pavers and 1" thin pavers.

**4" X 8"**

**Hydro-Block** is an environmentally-friendly hardscape product. It allows the readmission of water into the ground and the natural re-charge of the aquifer by reducing or eliminating storm water runoff. This 4x8 permeable paver helps protect the environment from dangerous pollutants in storm water run-off. In most cases it decreases flooding and relieves sewer systems.

It is Manufactured in 2-3/8" thick. LEED points are available when using this paver. (\*U.S. Green Building council)
