

BrookStone

The BrookStone Paver, available only from Flagstone Pavers, is a fluid blend of seven uniquely shaped and individually different concrete paving stones styled to emulate natural stone.

BrookStone is available in a wide range of beautiful color blends and is designed to be the ideal choice when it comes to fulfilling one's desire for natural stone looking driveways, pool decks, patios, and pathways! BrookStone is installed using typical paver installation methods – making it a very economical option compared to natural stone installations.

You are sure to be the envy of your family, friends, and neighbors when they see and experience areas hardscaped with this non-traditional concrete paver product. The combination of the subtle slate-like textured surface, smooth curving edges and gorgeous colors transform any space into one you've always dreamed about.
